CONTENTS OF VOLUME 74

No. 1, July, 1973

PAGE

The Amino Acid Sequences of Glycopeptides Obtained from Taka-Amylase A with Trypsin and Chymotrypsin. *S. Isemura and T. Ikenaka* 1

Comparative Study of Carbohydrate-Protein Complexes. I. The Structures of Glycopeptides Derived from Cuttlefish Skin Collagen. *M. Isemura, T. Ikenaka, and Y. Matsushima* 11

Effect of Varying the Immunizing Dose of Ovalbumin on the Production of Non-precipitating IgG1 and IgG2 Antibodies in Guinea Pigs. *T. Nakamura, T. Ohkawa, and J. Koyama* 23

Fractionation of Glycine, Alanine, and Serine Transfer Ribonucleic Acids from the Silk Gland. *M. Kawakami and K. Shimura* 33

Studies on Creatine Kinase of Skeletal Muscle and Brain with Special Reference to Subcellular Distribution and Isozymes. *I. Murone and K. Ogata* 41

Identification of Molecular Species of Ceramide 2-N-Methylaminoethylphosphonates Containing Normal Fatty Acids and Dihydroxy Long Chain Bases from *Turbo cornutus*. *F. Matsuura, T. Matsubara, and A. Hayashi* 49

Relationship between Serum Lipid Components in Hyperlipemia. *A. Yamamoto, K. Ishikawa, S. Uhara, S. Adachi, and M. Nishikawa* 59

Carboxamidomethylation of Yeast Inorganic Pyrophosphatase. *Y. Yano, T. Negi, and M. Irie* 67

Effect of Carboxyl Group Modification on Some of the Enzymatic Properties of L-Glutamate Dehydrogenase. *H. Swaisgood and M. Natake* 77

Effect of Phosphotungstic Acid on the Release by AMP of the Controlled Respiration of Rat Liver Mitochondria. *N. Yamanaka, M. Hagihara, and K. Yagi* 87

Studies on Ribosomal Ribonucleic Acid from Yeast. I. Isolation and Characterization of Anomalous Heavier 30S Ribonucleic Acid. *K. Yanagi and K. Iso* 95

Analysis of the Visible Absorption and Circular Dichroism Spectra of D-Amino-acid Oxidase Complexes. *T. Shiga and K. Shiga* 103

A Study of the Reaction of Monomers in High and Low Temperature Conformational States of D-Amino Acid Oxidase with Substrates and Quasi-Substrates. *K. Shiga and A. Isomoto* 111

Single-stranded RNA Synthesis *in vitro* by the RNA Polymerase Associated with Cytoplasmic Polyhedrosis Virus Containing Double-stranded RNA. *K. Shimotohno and K. Miura* 117

Biosynthetic Routes to 2-Aminoacetophenone and 2-Amino-3-hydroxyacetophenone. *H. Kaseda, T. Noguchi, and R. Kido* 127

Two Kinds of High Energy Phosphorylated Intermediate, with and without Bound ADP, in the Reaction of Na^+-K^+-dependent ATPase. *Y. Fukushima and Y. Tonomura* 135

Binding of Saccharides and Related Compounds to Hen Egg-white Lysozyme. *S. Kuramitsu, K. Ikeda, and K. Hamaguchi* 143

X-Ray Crystallographic Study of the Quaternary Structure of Canavalin. *A. McPherson, Jr. and A. Rich* 155

Purification and Characterization of Cytochrome b_5-like Hemoprotein Associated with Outer Mitochondrial Membrane of Rat Liver. *K. Fukushima and R. Sato* 161

PAGE

SHORT COMMUNICATIONS

Difference between Hexokinase Isoenzymes in Sensitivity to Sulfhydryl Inhibitor. *K. Murakami, Y. Imamura, and S. Ishibashi* 175

C-Terminal Amino Acid of D-Amino Acid Oxidase. *K. Yagi, N. Sugiura, and M. Mizuno* 179

Spectral Characteristics of Yeast Cytochrome *c*'s at the Temperature of Liquid Nitrogen. *K. Kawai and H. Mizushima* 183

Specific Elution of Tyrosyl-ribonucleic Acid Synthetase from Phospho-cellulose by Tyrosine Transfer Ribonucleic Acid. *H. Yamada* 187

Molecular Species of Lecithin Utilized for Cholesterol Esterification in Human and Rat Plasma *in Vitro*. *M. Sugano* 191

PRELIMINARY NOTES

Characterization of an Additional Factor for Amino Acid Polymerization from Silk Glands of Silkworms. *S. Ejiri, H. Taira, and K. Shimura* 195

Purification of Hemagglutinins from *Sophora japonica* Seeds by Affinity Chromatography. *T. Terao and T. Osawa* 199

No. 2, August, 1973

Application of Affinity Chromatography to Amino-acyl-ribonucleic Acid Synthetase I. *H. Hayashi* 203

Comparison of Tubulin and Actin. *H. Mohri and M. Shimomura* 209

Binding of N^1-Methylnicotinamide Chloride to Trp 62 Linked with the Ionization of Glu 35 of Hen Egg-white Lysozyme. *K. Ikeda and K. Hamaguchi* 221

The Structure and Function of Acid Proteases. II. Inactivation of Bovine Rennin by Acid Protease-Specific Inhibitors. *W.-J. Chang and K. Takahashi* 231

Studies on Human Salivary Kallikrein. I. Isolation of Human Salivary Kallikrein. *Y. Fujimoto, H. Moriya, and C. Moriwaki* 239

Studies on Human Salivary Kallikrein. II. Properties of purified Salivary Kallikrein. *Y. Fujimoto, C. Moriwaki, and H. Moriya* 247

Factors Affecting the Interactions of Collagen Molecules as Observed by *in Vitro* Fibril Formation. II. Effects of Species and Concentration of Anions. *T. Hayashi and Y. Nagai* 253

Qβ Replicase-associated, Polycytidylic Acid-dependent Polyguanylic Acid Polymerase. I. Characterization of the Reaction. *Y. Mitsunari and K. Hori* 263

Qβ Replicase-associated, Polycytidylic Acid-dependent Polyguanylic Acid Polymerase. II. Effect of Natural and Synthetic Polyribonucleotides on the Reaction. *K. Hori* 273

Biohydrogenation Accompanying the β-Oxidation of Unsaturated Fatty Acids by *Candida*. *K. Ishidate, M. Mizugaki, and M. Uchiyama* 279

Comparative Toxicology of Trichothec Mycotoxins: Inhibition of Protein Synthesis in Animal Cells. *Y. Ueno, M. Nakajima, K. Sakai, K. Ishii, N. Sato, and N. Shimada* 285

The Redox Reactions in Propionic Acid Fermentation. III. Enzymatic Properties of NAD-independent Glycerol-phosphate Dehydrogenase from *Propionibacterium arabinosum*. *N. Sone* 297

The Effects of pH and Borohydride Reduction on the Solubilization of Steer Hide Collagen by Pronase. *T. Fujii and K. Kobayashi* 307

The Primary Structure of Alanine Transfer Ribonucleic Acid 1 from *Torulopsis utilis*. I. Complete Digestion with Pancreatic Ribonuclease and Ribonuclease T_1. *S. Takemura, K. Ogawa, and K. Nakazawa* 313

PAGE

The Primary Structure of Alanine Transfer Ribonucleic Acid 1 from *Torulopsis utilis*. II. Partial Digestion with Ribonuclease T_1 and Derivation of the Complete Sequence. *S. Takemura and K. Ogawa* 323

Identification of the Reactive Site of Potato Proteinase Inhibitor II-b for Bovine Chymotrypsin and a Bacterial Proteinase. *T. Iwasaki, T. Kiyohara, and M. Yoshikawa* 335

Effect of Intramolecular Photochemical Cross-linking and of Alkylation of 4-Thiouridine in *E. coli* $tRNA_1^{Val}$. On the Heterologous Mischarging by Yeast Phenylalanyl-tRNA Synthetase. *S.A. Kumar, M. Krauskopf, and J. Ofengand* 341

Multiple Molecular Forms of Stem Bromelain. Isolation and Characterization of Two Closely Related Components, SB1 and SB2. *N. Takahashi, Y. Yasuda, K. Goto, T. Miyake, and T. Murachi* 355

Kinetic Studies on the Reaction Mechanism of Dioxygenases. *K. Hori, T. Hashimoto, and M. Nozaki* 375

SHORT COMMUNICATIONS

Actin-activated Mg-ATPase Activities of H-Meromyosin and Myosin Subfragment 1; Their Difference. *T. Hozumi and K. Tawada* 385

Activation of Na-K Activated ATPase in Rat Brain by Catecholamine. *K. Yoshimura* 389

Changes in Enzyme Activities of Rat Liver Peroxisomes under Various Physiological Conditions. *H. Hayashi, T. Suga, and S. Niinobe* 393

Prediction of Changes in the Action Pattern of Polymer-degrading Enzymes Following Chemical Modification of a subsite. *K. Hiromi, M. Ohnishi, and S. Shibata* 397

PRELIMINARY NOTE

Human Plasma Prekallikrein as a Protein Complex. *S. Nagasawa and T. Nakayasu* 401

No. 3, September, 1973

Electron Transfer Mechanism Involved in Stearoyl-Coenzyme A Desaturation by Particulate Fraction of *Mycobacterium phlei*. *Y. Kashiwabara and R. Sato* 405

Localization of Sucrase in the Microvillous Membrane of Rabbit Intestinal Mucosal Cells. *Y. Takesue, T.O. Yoshida, T. Akaza, and Y. Nishi* 415

Activities of Sulfated Polysaccharides in the Liberation of Lipoprotein Lipase into the Blood and Inhibition of Its Activity. *S. Yasuoka, S. Fujii, T. Yamaguchi, K. Sakurai, and T. Okuyama* 425

Energy Transfer from Tryptophan Residues to a Fluorescent ATP Analog, 1, N^6-Ethenoadenosine Triphosphate, Bound to H-Meromyosin. *H. Onishi, E. Ohtsuka, M. Ikehara, and Y. Tonomura* 435

Production of IgM and IgG Antibodies Specific for AMP in Rabbits by Immunization with AMP-*E. coli* Conjugate. *K. Furuichi, T. Sasaki, and J. Koyama* 451

Fractionation of Ribonuclease A Photosensitized with 4-Thiouridylic Acid. *F. Sawada and N. Kanbayashi* 459

Location of Heme *a* in Cytochrome *a*. II. Solvent Perturbation Spectroscopy of Ferricytochrome *a*. *T. Yamamoto and Y. Orii* 473

A Study of the Equilibrium between the Monomer and the Dimer of D-Amino-acid Oxidase. *K. Shiga, A. Isomoto, K. Horiike, and T. Yamano* 481

Studies on Bile Acids in Bear Bile. *K. Kurozumi, T. Harano, K. Yamasaki, and Y. Ayaki* 489

PAGE

Limited Proteolysis of Human IgG by Fruit Bromelain. *G.P. Vidal and M. Sasaki* 497

Isolation and Properties of the Insoluble Collagen Fraction from Bovine Nasal Septal Cartilage. *E. Hanada and F.K. Anan* 505

CD and Fluorescence Studies of $tRNA^{Phe}$ from Baker's Yeast. *Y. Takasaki and K. Imahori* 513

Difference-spectrophotometry of the Interaction of Cycloheptaamylose with Saccharifying α-Amylase from *Bacillus subtilis*. *M. Ohnishi, H. Hatano, and K. Hiromi* 519

Purification and Properties of Uridine Diphosphate N-Acetylmuramate: L-Alanine Ligase. *Y. Mizuno, M. Yaegashi, and E. Ito* 525

Immunochemical Properties of the Specific Anti-4-azoquinoline 1-Oxide Antibody. *S. Nakashima, M. Mazaki, and K. Sugimura* 539

Proteolipid of Bovine Brain White Matter: Relationship between Phospholipid and Protein. *Y. Uda and Y. Nakazawa* 545

Some Characteristics of Phosphorylation Reactions in Rat-liver Mitochondria Incubated without the Addition of Adenine Nucleotides and Their Relation to Substrate-level Phosphorylation. *Y. Tokumitsu and M. Ui* 551

Distribution of Adenine Nucleotides between the Inner and Outer Spaces of the Mitochondrion as a Determinant of Phosphorylation Pattern. *Y. Tokumitsu and M. Ui* 561

Comparison of Thermostable α-Amylases from *B. stearothermophilus* Grown at Different Temperatures. *K. Yutani, I. Sasaki, and K. Ogasahara* 573

Molecular Weight of Thermostable α-Amylase from *B. stearothermophilus*. *K. Yutani* 581

Effect of Penicillamine (a vitamin B_6 antagonist) on Pyridoxal Enzymes. *I. Tomono, M. Abe, and M. Matsuda* 587

Neutral and Amino Sugar Composition of Thyroglobulin. Comparison of the Compositions of Different Fractions of Hog Thyroglobulin and of Thyroglobulins from Various Animal Species. *N. Ui* 593

Regulation of Rabbit Liver Fructose Diphosphatase. I. Reversible Inactivation by Oxidized Glutathione. *K. Nakashima and K. Ogino* 601

Metabolism of Phospholipids in *Bacillus stearothermophilus*. *Y.H. Lee and K.C. Oo* 615

SHORT COMMUNICATIONS

RNA Turnover in Bound and Free Ribosomes from Rat Liver. Effects of Cortisol, Actinomycin D, and Cycloheximide. *M. Izawa and S. Ichii* 623

Studies on Mammalian Glycosidases. V. Effects of Metal Ions upon Acidic and Neutral α-Glucosidases, β-Galactosidases, and α-Mannosidases in Liver Extract of Rabbit. *I. Suzuki and H. Kushida* 627

PRELIMINARY NOTES

Unimportance of Histidine and Serine Residues of Trypsin in the Substrate Binding Function Proved by Affinity Chromatography. *K. Kasai and S. Ishii* 631

Antigenic Determinant Common to Four Kinds of Thiol Proteases of Plant Origin. *M. Sasaki, T. Kato, and S. Iida* 635

No. 4, October, 1973

Isolation and Characterization of Glycopeptides from Rough and Smooth Microsomes of Rat Liver. *T. Kawasaki and I. Yamashina* 639

PAGE

Synthesis and Properties of N^6-(2,4-Dinitrophenyl)-adenosine 5'-Triphosphate, an Analog of ATP. *T. Hiratsuka, I. Sakata, and K. Uchida* 649

Relation between Growth Hormone and Thioamide Derivatives in Induction of Ornithine Decarboxylase in Rat Liver. *F. Suzuki, H. Inoue, and Y. Takeda* 661

Detergent-resistant Phospholipase A_1 and A_2 in *Escherichia coli*. *O. Doi and S. Nojima* 667

Identification of the Reactive Site of Potato Proteinase Inhibitor I for Various Proteinases. *T. Kiyohara, M. Fujii, T. Iwasaki, and M. Yoshikawa* 675

Turnover of Hepatic Catalase Modified by Aminotriazole. *A. Nakamura and S. Minakami* 683

Stereospecific Hydrogen Transfer by NADPH-Enoyl Coenzyme A Reductase to *cis*- and *trans*-Isomers of 2-Enoic Acid. *M. Mizugaki and M. Uchiyama* 691

Studies on Soybean Trypsin Inhibitors. VIII. Disulfide Bridges in Soybean Bowman-Birk Proteinase Inhibitor. *S. Odani and T. Ikenaka* 697

Enzymatic Studies on the Metabolism of the Tetrahydrofurfuryl Mercaptan Moiety of Thiamine Tetrahydrofurfuryl Disulfide. I. Microsomal S-Transmethylase. *T. Fujita and Z. Suzuoki* 717

Enzymatic Studies on the Metabolism of the Tetrahydrofurfuryl Mercaptan Moiety of Thiamine Tetrahydrofurfuryl Disulfide. II. Sulfide and Sulfoxide Oxygenases in Microsomes. *T. Fujita, Z. Suzuoki, S. Kozuka, and S. Oae* 723

Enzymatic Studies on the Metabolism of the Tetrahydrofurfuryl Mercaptan Moiety of Thiamine Tetrahydrofurfuryl Disulfide. III. Oxidative Cleavage of the Tetrahydrofuran Moiety. *T. Fujita and Z. Suzuoki* 733

Enzymatic Studies on the Metabolism of the Tetrahydrofurfuryl Mercaptan Moiety of Thiamine Tetrahydrofurfuryl Disulfide. IV. Induction of Microsomal S-Transmethylase, and Sulfide and Sulfoxide Oxygenases in the Drug-treated Rat. *T. Fujita, A. Teraoka, and Z. Suzuoki* 739

Effects of Protein Deficiency on Serum Albumin-synthesizing Activity of Rat Liver—with Special Reference to the Presence of Transcriptional Controls. *H. Kido, Y. Shimazu, M. Ueki, and K. Ogata* 747

Carboxypeptidase C_N. I. Purification and Characterization of the Enzyme from the Exocarp of *Citrus natsudaidai* HAYATA. *Y. Kubota, S. Shoji, T. Funakoshi, and H. Ueki* 757

Immunological Studies on the Light Chains of Myosin with Special Reference to the Relationship between Light Chain Components. *N. Katoh, S. Kubo, and H. Takahashi* 771

Transaminase of Branched Chain Amino Acids. IX. Conformational Change of Isozyme I *in Vitro*. *K. Aki, T. Yoshimura, and A. Ichihara* 779

Mercaptoethanol Release upon Interaction of S-Lauroylmercaptoethanol with Serum Albumin. *S. Kurooka and Y. Yoshimura* 785

The Purification and Properties of Cytidine Deaminase from *Escherichia coli*. *H. Hosono and S. Kuno* 797

Biochemical Studies of Pigments from the Pathogenic Fungus, *Microsporum cookei*. Effect of the 1,4-Naphthoquinone Pigment, Xanthomegnin, on Oxidative Phosphorylation in Rat Liver Mitochondria. *Y. Ito, K. Kawai, and Y. Nozawa* 805

Spectral Change of Rhodamine 6G Caused by the Energization of Mitochondria, in Relation to Charge Separation. *N. Yaginuma, S. Hirose, and Y. Inada* 811

Non-mitochondrial Electron Transfer System in Anaerobically Grown Yeast Cells. *K. Kawaguchi, K. Ishidate, and K. Tagawa* 817

Structure of Polynucleotide Complexes with Non-complementary Nucleosides. III. A Further Study on Polyinosinic Acid+Copolynucleotide of Cytidylic and Uridylic Acids, and Polycytidylic Acid+Copolynucleotide of Inosinic and Uridylic Acids. *H. Akutsu, M. Fuke, and H. Hashizume* 827

Studies on the Biochemical Properties of Human Thyroid Gland Mitochondria. *B. Inatsuki, M. Hiraga, and F.K. Anan* 837

PAGE

PRELIMINARY NOTES

A New Protein Factor Required for Polypeptide Elongation in Mammalian Tissues. *K. Iwasaki, K. Mizumoto, M. Tanaka, and Y. Kaziro* 849

The Existence of Branched Structure in the Sugar Moiety of Oyster Sphingoglycolipid. *T. Matsubara and A. Hayashi* 853

Scission of Soybean Bowman-Birk Proteinase Inhibitor into Two Small Fragments Having Either Trypsin or Chymotrypsin Inhibitory Activity. *S. Odani and T. Ikenaka* 857

Molecular Conformational Transition of Hyaluronic Acid in Solution. *S. Hirano and S. Kondo* 861

No. 5, November, 1973

Studies on the Circadian Rhythm of Phosphoenolpyruvate Carboxykinase Activity in Rats. II. Effect of the Autonomic Nervous System on the Rhythm in Liver. *K. Nagai, M. Suda, and H. Nakagawa* 863

Cold Adaptation. III. Effects of Catecholamines and Thyroid Hormone on Induction of Liver Phosphoenolpyruvate Carboxykinase on Cold-exposure. *K. Nagai and H. Nakagawa* 873

Reversible Aggregation of a Human Erythrocyte Membrane Glycoprotein. *M. Janado, J. Azuma, and K. Onodera* 881

The Chemical Modification of Beef Liver Catalase. IV. The Properties of Acrylonitrile- or Glyoxal-treated Products of Catalase. *K. Abe, M. Hiraga, and F.K. Anan* 889

Effects of Adenosine Triphosphate and Sarcomere Length on the Dynamic Mechanical Properties of Glycerinated Rabbit Muscle Fiber Bundles. *H. Onishi, K. Miki, M. Kaneko, and Y. Tonomura* 905

Studies on Luciferase from *Photobacterium phosphoreum*. IV. Preparation and Properties of Stripped Luciferase. *K. Yoshida and T. Nakamura* 915

Direct Evidence for the Two Route Mechanism of the Acto-H-meromyosin-ATPase Reaction. *A. Inoue, M. Shigekawa, and Y. Tonomura* 923

Kinetic Studies on Glucoamylase. VI. Inhibition of Substrate Analogues. *K. Hiromi, M. Kawai, N. Suetsugu, Y. Nitta, T. Hosotani, A. Nagao, F. Nakajima, and S. Ono* 935

Structure and Function of Chloroplast Proteins. XIX. Dissociation of Spinach Leaf Ribulose-1, 5-diphosphate Carboxylase by *p*-Mercuribenzoate. *M. Nishimura, T. Takabe, T. Sugiyama, and T. Akazawa* 945

Glyceraldehyde 3-Phosphate Dehydrogenase of *Bacillus stearothermophilus*. Kinetics and Physicochemical Studies. *K. Suzuki and K. Imahori* 955

Interaction of Yeast Alcohol Dehydrogenase with Various Substrates. I. Binding of Coenzymes. *T. Yamada and M. Yamato* 971

Structural Studies of Cytochrome b_5. III. Sequential Studies on Human Liver Cytochrome b_5. *M.A. Rashid, B. Hagihara, M. Kobayashi, S. Tani, and A. Tsugita* 985

Gluconeogenesis and Amino Acid Metabolism. II. Inter-organal Relations and Roles of Glutamine and Alanine in the Amino Acid Metabolism of Fasted Rats. *T. Aikawa, H. Matsutaka, H. Yamamoto, T. Okuda, E. Ishikawa, T. Kawano, and E. Matsumura* 1003

Gluconeogenesis and Amino Acid Metabolism. III. Uptake of Glutamine and Output of Alanine and Ammonia by Non-hepatic Splanchnic Organs of Fasted Rats and Their Metabolic Significance. *H. Matsutaka, T. Aikawa, H. Yamamoto, and E. Ishikawa* 1019

Removal of One g_2-Subunit from the Myosin Molecule by *p*-Chloromercuribenzoate-treatment. *Y. Hayashi, H. Takenaka, and Y. Tonomura* 1031

PAGE

Studies on 3,4-Dihydroxyphenylacetate 2,3-Dioxygenase. I. Role of Iron, Substrate Binding, and Some Other Properties. *M. Ono-Kamimoto* 1049

SHORT COMMUNICATIONS

Incorporation of ^{14}C-Leucine and ^{3}H-δ-Aminolevulinic Acid into Catalase of Liver and Kidney. *T. Higashi, F. Kawamata, and T. Sakamoto* 1061

Hydrogen Transfer from NADPH to Steroid by Testicular 20α-Hydroxysteroid Dehydrogenase: Stereospecificity and Isotope Effect. *F. Hatano-Sato, Y. Takagi, and M. Shikita* 1065

PRELIMINARY NOTE

The Influence of *p*-Nitrophenyl β-D-Xyloside on the Synthesis of Proteochondroitin Sulfate by Slices of Embryonic Chick Cartilage. *M. Okayama, K. Kimata, and S. Suzuki* 1069

No. 6, December, 1973

The Structure and Function of Ribonuclease T_1. XIX. Differential Cleavages of the Disulfide Bonds in Ribonuclease T_1 with 2-Mercaptoethanol. *S. Hayakawa and K. Takahashi* 1075

Products of Performic Acid Oxidation and Acid Hydrolysis of S-Carboxymethylcysteine and Related Compounds. *K. Takahashi* 1083

Reaction Mechanism of the Ca^{2+}-dependent ATPase of Sarcoplasmic Reticulum from Skeletal Muscle. IX. Kinetic Studies on the Conversion of Osmotic Energy to Chemical Energy in the Sarcoplasmic Reticulum. *S. Yamada and Y. Tonomura* 1091

Structure and Function of D-Amino Acid Oxidase. VII. Interaction of Hydrophobic Probes with D-Amino Acid Oxidase. *M. Naoi, A. Kotaki, and K. Yagi* 1097

Distinction between Two Moles of ADP Binding to Heavy Meromyosin in the Presence of Mn(II), and Its Bearing on ATPase Action. *M. Yazawa, F. Morita, and K. Yagi* 1107

Physico-chemical Characterization of Tryptophyl Residues in Chymotrypsinogen-A and π-Chymotrypsin. *H. Hashizume* 1119

Distribution of Sulfate Groups in the Partially Sulfated Dextrans. *H. Miyaji and A. Misaki* 1131

Purification and Properties of α-L-Fucosidase from *Bacillus fulminans*. *N. Kochibe* 1141

Subunit Structure of AMP Nucleosidase from *Azotobacter vinelandii*. *M. Yoshino and T. Takagi* 1151

Inhibition of Lipid Biosynthesis by *p*-Chlorophenoxyisobutyrate (CPIB) in *Tetrahymena pyriformis*. *Y. Nozawa* 1157

Studies on Pyruvate Kinase (PK) Deficiency. II. Electrophoretic, Kinetic, and Immunological Studies on Pyruvate Kinase of Erythrocytes and Other Tissues. *K. Imamura, T. Tanaka, T. Nishina, K. Nakashima, and S. Miwa* 1165

DNA-dependent RNA Polymerase from Ehrlich Ascites Tumor Cells. III. Ribonuclease H and Elongating Activity of Stimulatory Factor S-II. *S. Natori, K. Takeuchi, and D. Mizuno* 1177

Fructose-1,6-bisphosphatase of an Extreme Thermophile. *M. Yoshida, T. Oshima, and K. Imahori* 1183

Electron and Proton Transport in *Rhodospirillum rubrum* Chromatophores. *T. Kakuno, K. Hosoi, T. Higuti, and T. Horio* 1193

Two Different NADH Dehydrogenases in Respiration of *Rhodospirillum rubrum* Chromatophores. *Y. Nisimoto, T. Kakuno, J. Yamashita, and T. Horio* 1205

Studies on Ion Transport in Cells of Photosynthetic Bacteria. I. The Key Role of Anions in Determining the Direction and Magnitude of Hydrogen Ion Flux. *Y. Kobayashi and M. Nishimura* 1217

PAGE

Studies on Ion Transport in Cells of Photosynthetic Bacteria. II. Analysis of Reversed Hydrogen Ion Change. *Y. Kobayashi and M. Nishimura* 1227

Studies on Ion Transport in Cells of Photosynthetic Bacteria. III. The Influence of Uncouplers on Hydrogen Ion Change. *Y. Kobayashi and M. Nishimura* 1233

Studies on Homoserine Dehydrogenase from an Extreme Thermophile, *Thermus flavus* AT-62. Partial Purification and Properties. *T. Saiki, H. Shinshi, and K. Arima* 1239

Transport of Sugars and Amino Acids in Bacteria. VII. Characterization of the Reaction of Restoration of Active Transport Mediated by Binding Protein. *Y. Anraku, H. Kobayashi, H. Amanuma, and A. Yamaguchi* 1249

SHORT COMMUNICATIONS

Effect of Lysolecithin and Albumin on Lecithin-Cholesterol Acyltransferase Activity in Human Plasma. *M. Nakagawa and T. Nishida* 1263

The Characteristic Action Patterns of Crystalline Bacterial Saccharifying α-Amylase Independent of Its Microheterogeneity. *H. Fujimori, K. Hiromi, S. Koyama, Y. Momotani, Y. Nakae, M. Ohnishi, T. Shibaoka, N. Suetsugu, K. Umeki, and T. Yamamoto* 1267

The Role of Tryptophan Residues of Bacterial Liquefying α-Amylase and Taka-amylase A in the Enzymatic Hydrolysis of Linear Substrates. *M. Ohnishi, T. Suganuma, H. Fujimori, and K. Hiromi* 1271

PRELIMINARY NOTES

Competition between P_i and pH Indicators in Photosynthetic ATP Formation in Chromatophores of *Rhodospirillum rubrum*. *K. Hosoi, S. Yoshimura, G. Soe, T. Kakuno, and T. Horio* 1275

Evidence for the Implication of Histidines-40 and -92 in the Active Site of Ribonuclease T_1. *K. Takahashi* 1279

Effect of F-Actin on the Reactivity of a Specific Sulfhydryl Group (S_2) in Heavy Meromyosin. *T. Kameyama and T. Sekine* 1283
